

Make your own WIN Rosette

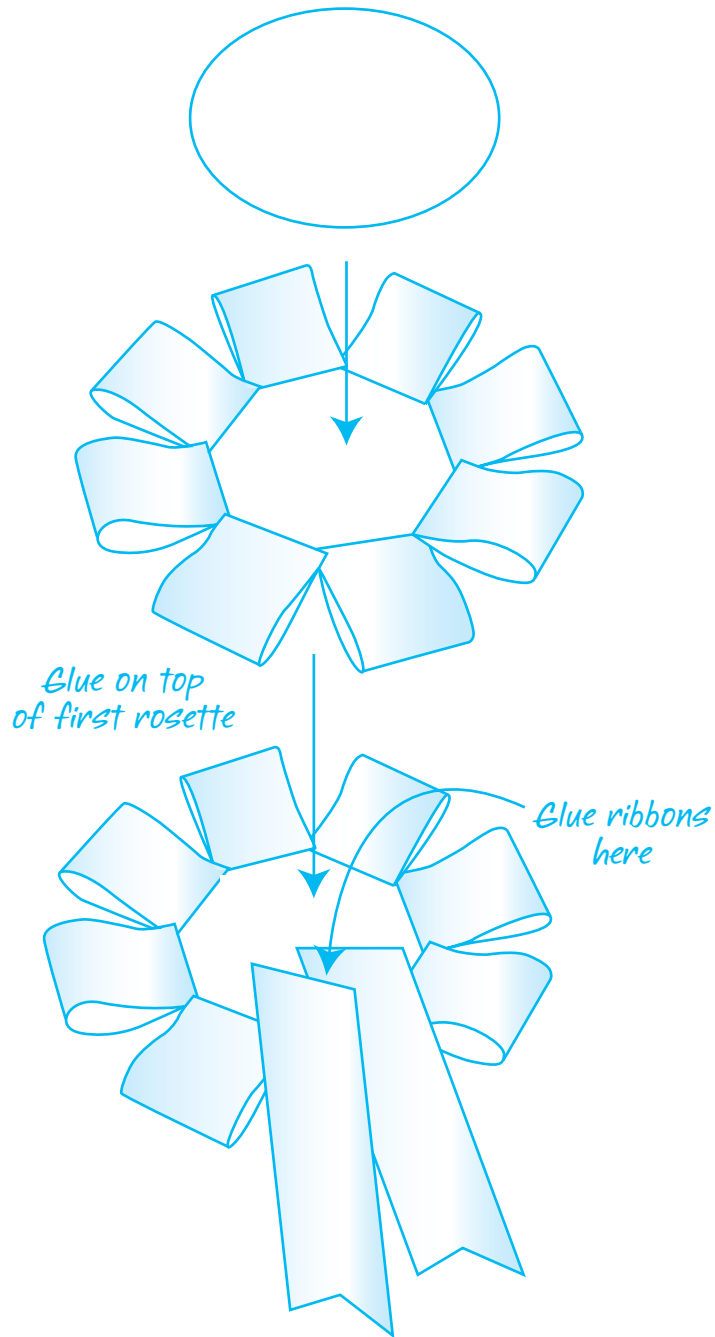

You will need:

Scissors, glue, cellotape and a safety pin.

How to make your rosette:

- Print out your 2 chosen colours. It could be A & B or C & D.
- Fold the strips over and stick them down with cellotape (or glue) as shown until you have been all the way around.
- Do the same with **both** print outs.

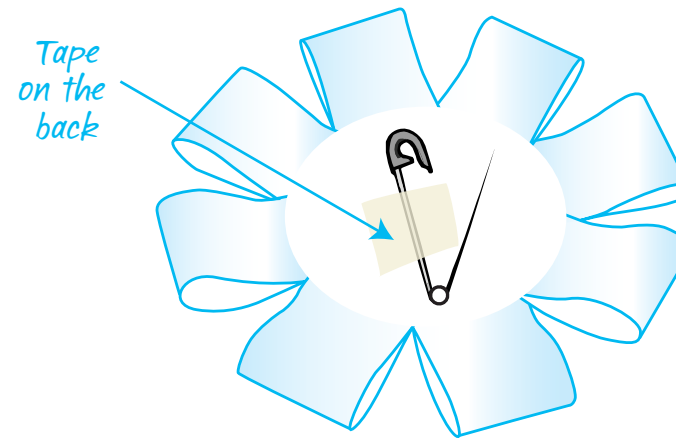

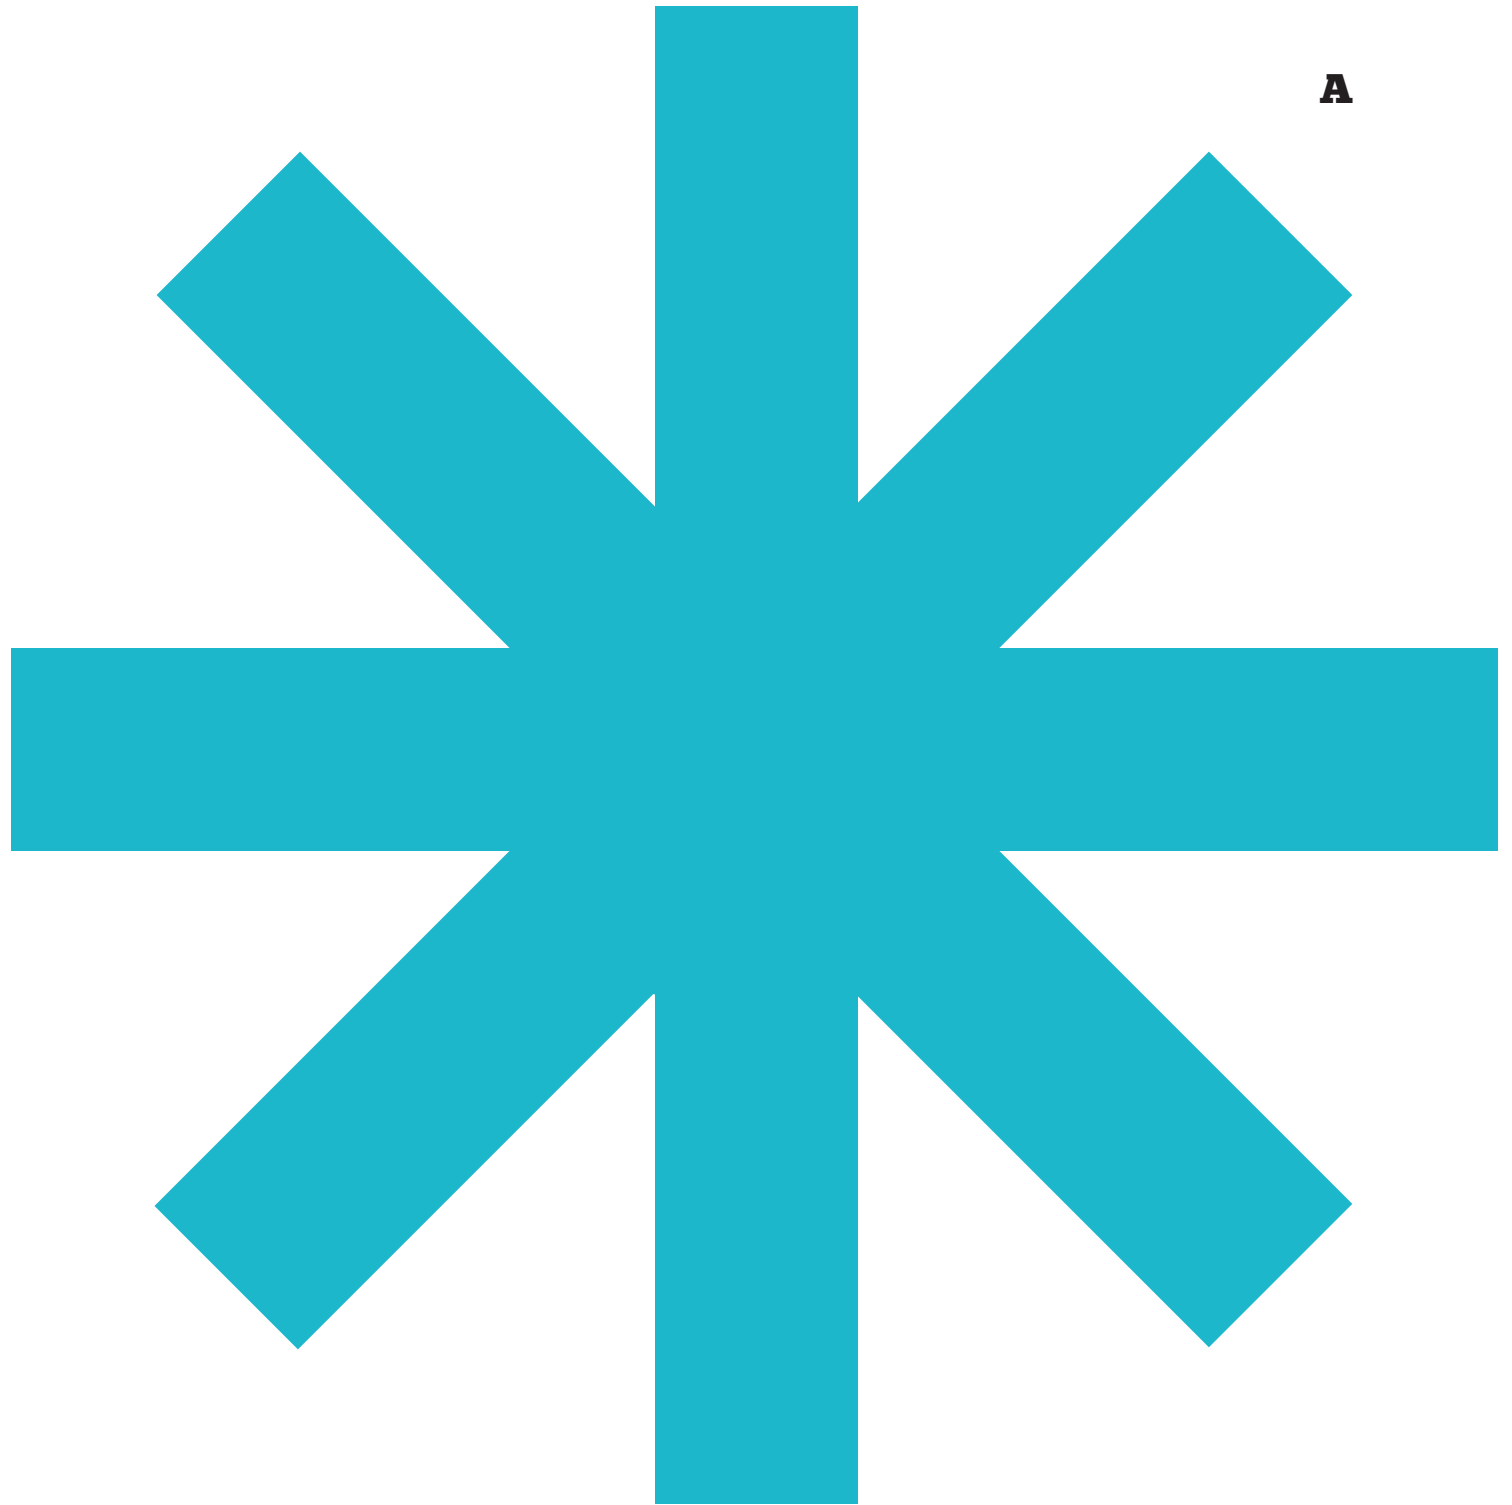

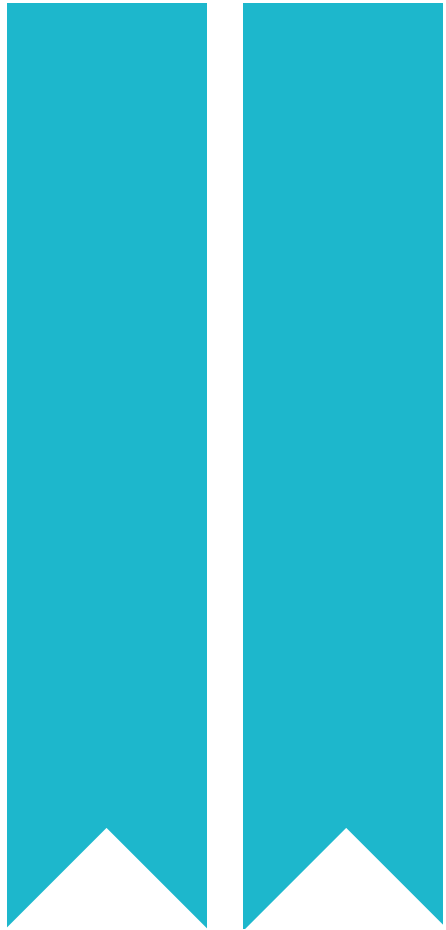

- Cut out your ribbon strips and cellotape or glue to the centre of the shape. Now glue the other shape on top. You can turn the shape a little bit so you aren't lining the flaps up.

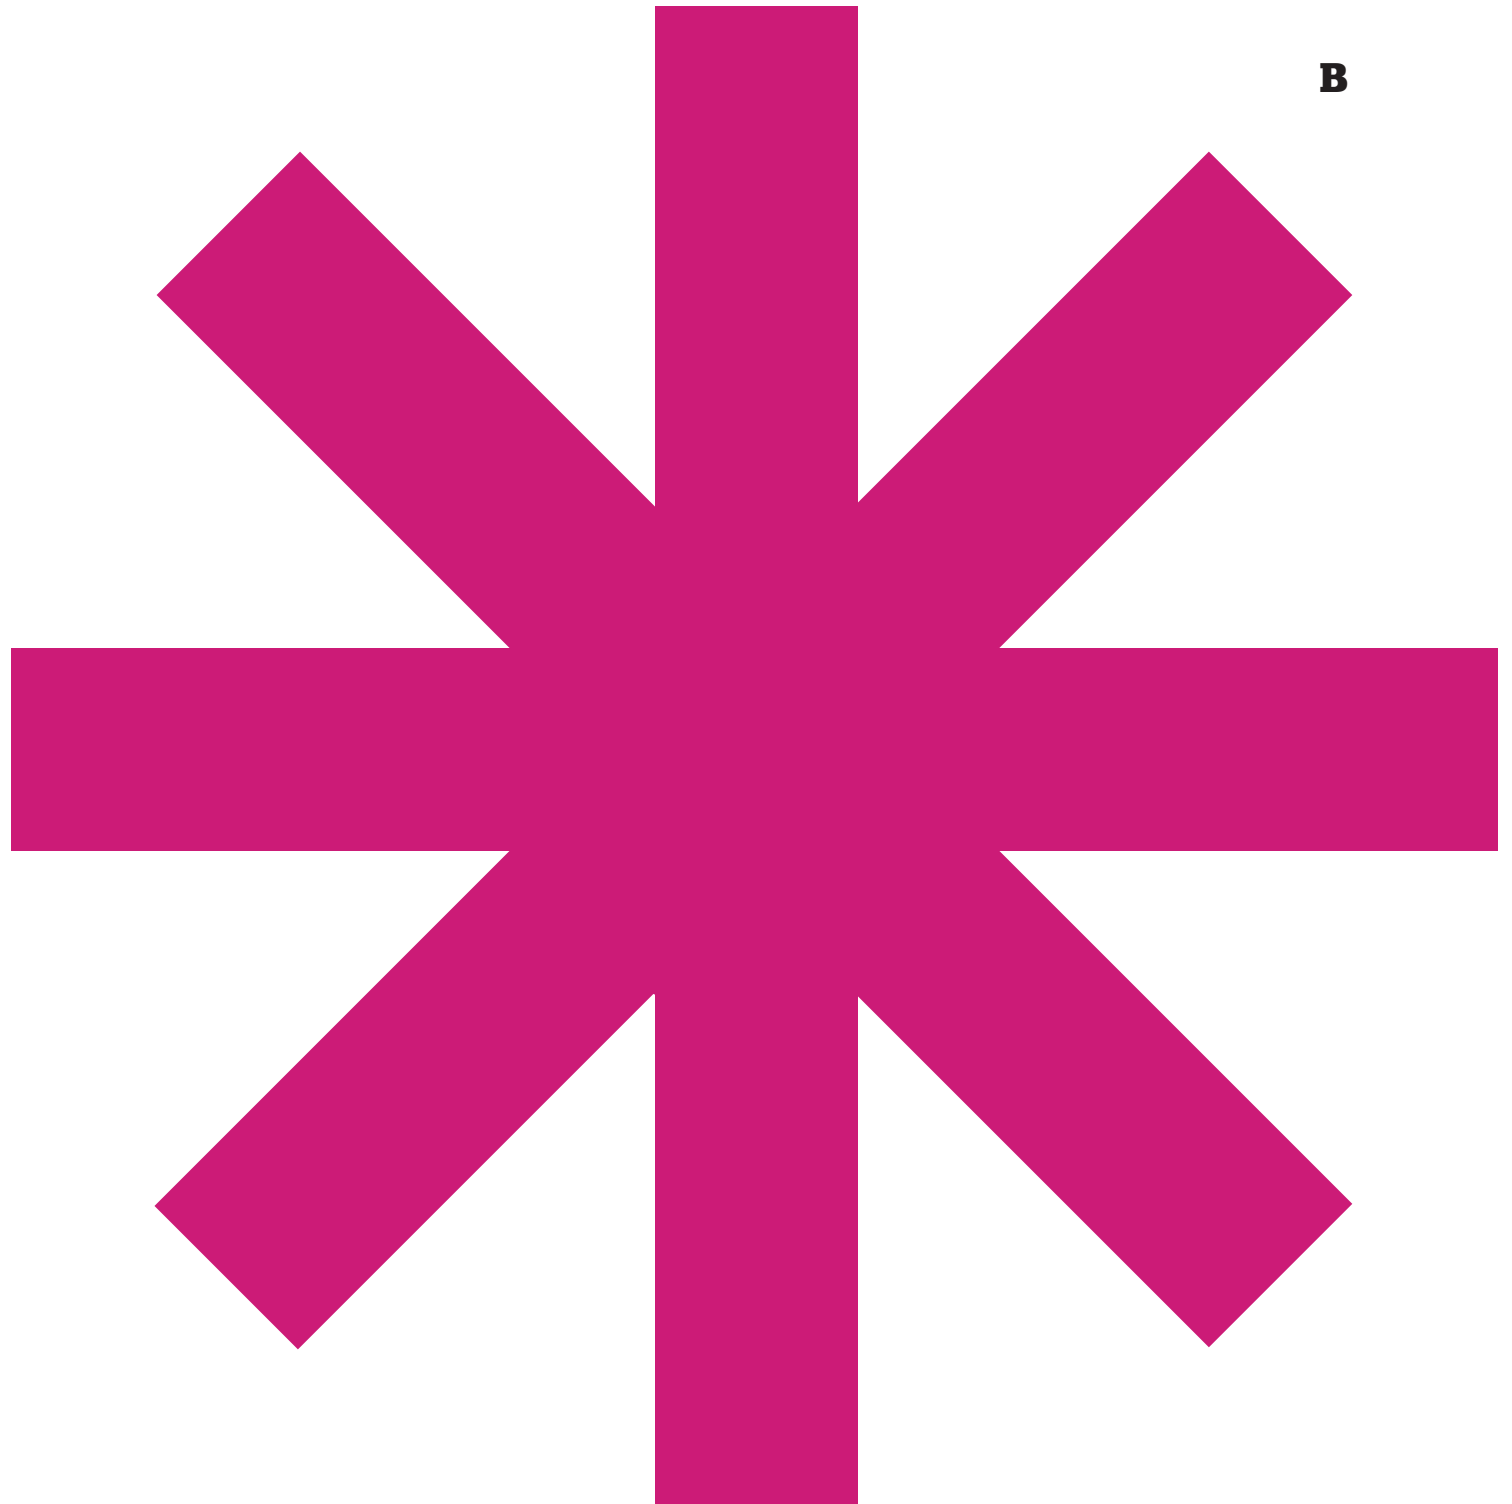

- Cut out the central circle and glue or cellotape this on the top of the shape, in the middle.

- Next, stick the safety pin to the back of your rosette.
